

What has Mbuyelo Head Office been up to?

One of the main duties of Mbuyelo Group head office, is to support all the operations in their endeavours as much as we can.

Mbuyelo team members have been on and off the operations to attend meetings, gatherings, site visits and functions organised by the mines themselves. A big thank you to all the operations who have kept us in the loop about all their plans, calendar dates and functions.

Other than that, Mbuyelo head office has also been thinking of ways to give back to their communities, and one of the ways that has been done was to partake in the nationwide 16

“Help us fight this scourge”

days of activism end of November of 2022. We identified an informal settlement near the Thokoza Police Station and paid them a visit for a day, to educate, support, and entertain them around the topic of Gender Based Violence. “Help us fight this scourge” was the topic of the day as we tackled issues of violence against women, men

and children using speakers from SAPS, Metro Police, and social workers. Our very own Felicia Zikalala paid us a visit from Ntshovelo

mine, to be our master of ceremonies for the day, given her apparent passion and regular interaction with organisations that deal with similar issues near their mining community. The locals came out in numbers. We hope to do more in future for our community, only because it is in our nature as Mbuyelo team members to want to look around us and touch lives.
